

Mandatory monitoring summary 2018

As per the National Psa-V Pest Management Plan it is a requirement that All Not Detected orchards in all regions monitor their orchards between 15th September and 15th October 2018 and report their results to KVH on or before 31st October 2018.

Some of the orchards listed here are new Greenfields developments and arguta orchards - they are also required to record and report their monitoring.

Region	No. of Not Detected orchards (required to report mandatory monitoring)	Number which haven't sent in results	Percentage received (due 31st October)
